

ASHUTOSH PANWAR

Aspiring AI & Machine Learning Developer

Srinagar Garhwal, Pauri, Uttarakhand | 8679621293 | ashutoshpanwar07@gmail.com | linkedin.com/in/ashutosh-panwar-5192951b8

PROFILE SUMMARY

Computer Science Engineering graduate (final result awaited) with hands-on exposure to applied AI and machine learning through an internship at CodeAlpha, backed by a certification in Generative AI, LLM & RAG concepts. Strong foundation in Python and Data Structures & Algorithms, with practical project experience in structured databases and full-stack development. Detail-oriented, fast learner, and motivated to grow into an AI & Machine Learning Developer role, building on a genuine interest in applied AI systems.

RELEVANT SKILLS

- AI & Machine Learning: Applied AI/ML fundamentals (via CodeAlpha internship), Generative AI, LLM & RAG concepts (certified)
- Programming Languages: Python, Java, C, C++, JavaScript
- Databases: MySQL, MongoDB — schema design, structured/relational data modeling
- Tools & Practices: Git, VS Code, structured data entry and documentation
- Core CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, debugging & code review
- Not yet met: Hands-on experience with ML frameworks (TensorFlow, PyTorch, scikit-learn) and model deployment — internship and certification provide conceptual grounding, but framework-level project work is still to be built

CERTIFICATIONS

- Generative AI, LLM & RAG – Skill Up (GeeksforGeeks)
- Full Stack Web Development – Skill Up (GeeksforGeeks)
- Programming in C# (Udemy, issued Nov 2023)
- C++ Training Program (SLOG Solutions Pvt. Ltd., issued Jul 2024)
- Java Training Program (SLOG Solutions Pvt. Ltd., issued Aug 2024)

INTERNSHIP

Artificial Intelligence Intern — CodeAlpha

- Gained hands-on exposure to applied AI and machine learning concepts and workflows

RELEVANT PROJECT EXPERIENCE

Campus/Hostel Complaint Management System

- Designed a structured MySQL database to keep records accurate, consistent, and easy to audit
- Implemented a status-tracking workflow (raised → in-progress → resolved) giving administrators real-time visibility into pending issues
- Built role-based access controls to maintain data integrity and accountability across records

Waste Management System Using CCTV and Notification

- Built an automated real-time detection and alert system, reducing manual inspection effort and human error
- Improved response time and accuracy by automating tracking workflows and routing real-time notifications to the right team

EDUCATION

B.Tech, Computer Science Engineering <i>Institute of Technology, Gopeshwar — Coursework completed, final result awaited</i>	08/2023 – 2026
Diploma, Civil Engineering <i>Government Polytechnic, Srinagar (Garhwal)</i>	08/2023
Intermediate (PCM) <i>Government Inter College, Srinagar, Pauri Garhwal</i>	07/2020
High School <i>Shri Guru Ram Rai Public School, Srinagar Garhwal</i>	05/2016

CORE STRENGTHS

- Problem Solving & Analytical Thinking — grounded in DSA and logical reasoning
- Ownership & Initiative — self-directed project builds from design through implementation
- Adaptability — transitioned fields (Civil Engineering to Computer Science) and quickly adopts new tools
- Team Collaboration — delivered group academic projects with shared accountability

LANGUAGES

English, Hindi
